Notes with Cambria Cup Draw

We have reverted to knockout throughout for the Cambria Cup, last year's experiment with a 4-team final weekend not having proved popular. There are 18 entries so two matches are played in the first round to reduce the field to 16.

This is a full draw covering all the matches. The draw is regionalised in the early rounds as far as is practicable – one mid-Wales team is drawn with the North and one with the East, and one match in round three involves a team from the North playing a team from the East. The semi-final is drawn without geographic constraints.

The upper team in each match is at home.

One green point is awarded for matches in rounds 1 and 2. Awards for subsequent rounds will be decided soon.

You should strive to play your matches by the dates given in the table. Please keep the organiser informed if you have difficulty in achieving this.

If circumstances require it, such as teams failing to agree dates, the organiser will exercise discretion. The organiser also has discretion to resolve disputes and make whatever adjustments are necessary in the interests of the competition as whole. In extremis, a team may be disqualified.

All players must be members of the WBU. Up to a maximum of 6 players in a team, extra players who have not played in the event may be added at any time, but notification before they play must be received as explained in the Journal.

Remember that the Cambria Cup uses aggregate scoring, each team must be playing at least one member of each sex at any given moment, and pairings rotate. See the Journal for more details.

Address queries and send results to me, Mike Tedd, by email to mike.tedd@aber.ac.uk (preferably), telephone 01970 611518 or by post to Llys Blodau, Iorwerth Ave, Aberystwyth SY23 1EW. Please include the names of people playing in each match if you have a team of more than 4.

For your interest, the draw for Welsh and Cambria Cups is done by sending just the team numbers to someone else for randomising (consistent with regionalisation).
